Amer Enterprises brings to the table with its own experience in the home business industry as to why Predator Marketing System is the key to any home business.

PR9.NET November 02, 2006 - Calgary, AB -- Amer Enterprises, a multiple home business firm announces its recent connection with Predator Automated Marketing Systems (PAMS.) Since the September 2006 launch of Predator Marketing System, by Mentors on a Mission, the Predator business system has introduced its business model said to tackle key points to failure in home based businesses.

According to Qais Amer CEO of Amer Enterprises, "95% of the people starting a home business fail. The Predator Marketing System has studied the reasons behind that and teaches its members with beginner to advanced courses like "Make Money or Make Excuses", on how to exactly achieve a 95% success rate with any home business" Through investigating many such home business, the top reasons for failure have been identified:

1. Obtaining sufficient qualified prospects
2. Inability to deliver professional, effective product and opportunity presentations
3. Building multiple streams of income
4. Inability of business owners to professionally speak on the phone
5. Closing the sale

"Unlike other home based businesses Predator Marketing System builds my existing businesses, which in turn generates multiple income streams, and it also promotes itself. Qais adds, "My favorite feature about this system is that it totally puts Amer Enterprises, which is a multiple home business company, on Auto-Pilot. Prospects visiting my system who submit a contact request and immediately is called back by a highly trained closer. The closer closes the sale, and each time that happens I earn US\$1000 or US\$3000. This is why I don't have to call anyone and why I can have multiple home business."

Founder, Al Turnquist announced that he has launched a series of national television advertising campaigns. on stations like CNN, The Discovery Channel and many more. Any sales generated from these campaigns will go directly to the PMS business owners free of charge. Other business owners who would like to give their existing business an internet start will be able to add up to seven businesses to their Predator Business Portfolio. Predator's trained, professional closers will also close these additional portfolio sales for the business owner.

"Overall I'm very impressed with the Predator Marketing System's ability to demonstrate the fact that it can train its members with the training that has never before been introduced to this industry. Also to overcome the drawbacks of a normal home based business where you are destined to fail", Qais Amer CEO of Amer Enterprises.
