An online global industrial supply marketplace introduces a new directory and buying guide featuring thousands of processing equipment manufacturers and suppliers in over 54 countries.

PR9.NET November 13, 2006 - Westboro, MA - ForeignTradeExchange.com, an import and export industrial supply portal and publisher of multiple international industrial directories announced today the launch of its new processing equipment buying guide and directory.

The new publication is intended for engineers, technical professionals, manufacturers and other industrial buyers of processing equipment primarily in Canada, United States, Mexico, Australia, United Kingdom, China, India, South Africa, New Zealand, Netherlands, Italy, Germany and other EU countries.

According to Mark Hamilton, Business Director of ForeignTradeExchange.com, the directory is the company's eleventh specialized buying guide published in 2006 and sixty fourth specialized industrial directory now available on its Web site.

The processing equipment offerings available in the directory include blowers, chillers, absorbers, static control products, blenders, apertures, blades, connectors, anti-freeze products, shields, tanks, coolers, steam equipment, towers, ultrafiltration, bags, ultraviolet, chemical processing equipment, barrels, heaters, corks, baffles, insulation, lamps, coolants, flakers, liners, desiccants, mixers, propellers, refrigerating equipment, cryogenic systems, dryers, extraction machines, fans, cooling and flushing equipment, condensers, filtration products, other processing equipment.

The directory can be instantly accessed at, http://www.ForeignTradeExchange.com/suppliers/processing_equipment.html

"The new buying guide includes offerings from thousands of suppliers that manufacture and/or sell processing equipment and accessories, including custom made and original equipment manufacturers," says Hamilton.

ForeignTradeExchange.com also provides on its Web site a specialized trade forum for members and users to post offers to buy and sell processing equipment and a wide range of other industrial equipment, machinery and supplies.
