*New waste handling directory and buying guide helps industrial buyers locate manufacturers and suppliers of waste handling equipment, environmental products and related services worldwide*

PR9.NET November 29, 2006 - Westboro, MA - IndustrialLeaders.com, an industrial supply marketplace and portal for engineers and other industrial buyers, announced today the official launch of its new directory of environmental and waste management equipment. The new directory is designed to assist companies worldwide sourcing for manufacturers, exporters and distributors of new and used waste handling products.

The directory includes waste management and recycling equipment, disposal containers, recycling products, waste containers, compactors, containment baskets, tanks, furnaces, waste reduction systems, burners, incinerators, recycle bins, sewer pumps, tracers, traps and waste disposal systems for nearly all environmental and waste management applications.

Other products in the directory include a wide range of air cleaning and pollution control equipment, waste disposal products, simulators, scrubbers, purifiers, waste management kits, monitors, lead removal equipment, evaporators, emissions, dust collection equipment, chambers, cleanrooms, boots and other waste handling and environmental management equipment.

The directory is located at, [http://www.IndustrialLeaders.com/listings/environmental\\_waste\\_handling\\_equipment.html](http://www.IndustrialLeaders.com/listings/environmental_waste_handling_equipment.html)

According to Conrad Bailey, Business Director of IndustrialLeaders.com, offerings in the directory are primarily from suppliers based in the United States, Canada, Mexico, Australia, United Kingdom, South Africa, New Zealand, India, China, Netherlands, Germany, Italy and several other EU countries.

"The directory features waste handling equipment for nearly all industrial, construction and municipal applications," says Bailey. "Including hazardous waste, nuclear, waste water, oil heater, toxic, pet, garbage disposal, allied waste, oil burner, waste recycling, city dumps, radioactive, oil, medical, onyx, human waste, safety sanitation, environmental management, receptacle, BFI, smelting, industrial waste, paper, catalyst nickel, solid waste, alkaline, electronic, food waste, plastic, aluminum, battery, tire, newspaper, glass and chemical waste."
