*The Real Estate Industry's Largest and Fastest Growing Networking Community Passes The 10,000 Member Mark, Through Member Driven Growth.*

PR9.NET December 04, 2006 - Bothell, WA - The ActiveRain Real Estate Network, real estate's largest and fastest growing networking community, has surpassed 10,000 members in just 6 months.

Launched in June 2006 by ActiveRain Corp., The ActiveRain Real Estate Network has become a popular online destination for real estate professionals. Within the online community, real estate professionals from the United States and Canada, network, interact, share knowledge, and develop their businesses online.

With a few members at launch, the numbers are growing rapidly. Growth is member driven, and directly related to the value members derive from participating and sharing within the ActiveRain Community. "The information about Realtors® and the surrounding industries that has evolved on this Network is absolutely mind boggling," says Karen Hurst, Rhode Island Realtor® and ActiveRain Member.

"It's been absolutely amazing how fast such a thriving real estate community could come together on ActiveRain, to see the positive affects it is having on both our members' business and personal lives" says ActiveRain CEO Matt Heaton. Karen Hurst also sees the connections being developed as both professional and personal. "The friends and acquaintances made here are very valuable both in our home life and in networking."

The ActiveRain Real Estate Network has grown rapidly within the real estate community. The connections being made and the value to members is evident in member efforts to expand the network.
