Leading storage tank supplier TankDepot.co.uk has announced the addition of new Potable and Non Potable Bulk Water Storage Tanks, and Bunded waste Oil Wells to the company's fast growing range of environmentally preferred liquid storage tanks.

PR9.NET December 10, 2006 - LITTLE EATON, UNITED KINGDOM - Already established as the UK's leading online supplier of environmentally preferred, rotationally moulded storage tanks, TankDepot.co.uk has announced the addition of several important new product ranges.

With water restrictions and hosepipe bans seemingly becoming an ever more common part of the British way of life, interest in rainwater recycling and water conservation has never been stronger. In response, TankDepot.co.uk, has introduced a new range of bulk water storage systems, from the UK's leading storage tank manufacturer, Titan Environmental.

Manufactured from a premium grade of medium density polyethylene (MDPE), each tank has been purpose designed for the storage of water at potable (i.e. drinking water) and non-potable (i.e. water not intended for human consumption) installations. Five different capacities are available, with volumes ranging from 1,300 litres to 10,000 litres and all models featuring a compact, space-saving, vertical design.

For ease of installation, all models are supplied complete with sealed inspection aperture and factory fitted outlet. To ensure full compliance with the most demanding technical requirements, all Titan Potable Water Tanks are manufactured exclusively from a WRAS approved grade of polyethylene and are WRC approved.

Also joining the TankDepot.co.uk range is Titan's SpillSafe range of Bunded Waste Oil Wells. Purpose designed for the intelligent storage of waste oils and lubricants, every SpillSafe Waste Oil Well exceeds The Water Environment (Oil Storage) (Scotland) Regulations 2006 and comparable requirements throughout the United Kingdom.

Ideal for use at farms, garages, marinas, workshops and civic amenity sites, a total of 5 models are available, with capacities ranging from 200 litres to 2,500 litres. Strong and robust, each model features a large capacity filter bowl with removable strainer, integral bunding and inbuilt 'Bundman' spillage detector.

For more information on the complete TankDepot.co.uk range of storage tanks designed for the safe, secure and environmentally responsible storage of agricultural fuel oil, diesel, heating oil, potable and non-potable water and waste oil, visit TankDepot.co.uk online at www.tankdepot.co.uk
