GizMac Accessories Unveiled New Titan Clear iPod Cases and Reduces Prices of Other Titan Products During the MacWorld Expo

PR9.NET January 17, 2007 - San Francisco, CA – GizMac Accessories, designer and manufacturer of innovative products for the iPod, show their new Titan Clear iPod cases and reduce prices on the rest of the Titan line at MacWorld.

Known for the Titan line of iPod cases and accessories, GizMac is expanding their line with the Titan Clear iPod case. The new Titan Clear cases are tough, clear polycarbonate cases and are on display in the GizMac booth last week at the MacWorld Expo in San Francisco.

"The Titan Clear iPod case continues the Titan product line's motto of 'Cause Everyone Wears Their iPod Differently'," Says Ken Vitto, Director of Marketing for GizMac Accessories, "the Titan Clear cases include armband, carabiner, belt clip and lanyard attachments like the other items in the Titan product line."

Permanent price reductions to the existing Titan product line occurred during MacWorld. Both the Titan anodized aluminum cases for first generation iPod Nano and the Titan Gear accessory attachments for the second generation iPod Nano, have price reductions. Titan aluminum iPod case prices are now \$19.99 and the Titan Gear price becomes \$19.99 as well.

Additional information about the Titan Clear, GizMac and current products can be found on their web site at <http://www.gizmac.com>.
