PR9.NET January 22, 2007 - Torrance, CA – GizMac Accessories, designer and manufacturer of innovative products for the iPod, announce their MacWorld Best of Show Finalist status for their new Titan Clear iPod case.

Known for the Titan line of iPod cases and accessories, GizMac is expanding their line with the new Titan Clear iPod case. The Titan Clear polycarbonate cases were on display for the first time during the MacWorld Expo in San Francisco when chosen as Best of Show Finalist.

"Unlike some clear plastic iPod Nano cases that provide you with only one or two carrying options, GizMac's Titan Clear throws in the kitchen sink when it comes to carrying options, meaning that you don't have to buy four different cases in order to carry your Nano in four different ways." says iProng Publisher Bill Palmer, "The iProng Editorial team selected the Titan Clear as a Macworld Expo 2007 Best of Show Finalist for this reason."

"We are pleased and honored that iProng recognized our new Titan Clear case as a product worthy enough to be awarded Best of Show Finalist," mentions Ken Vitto, Director of Marketing for GizMac Accessories, "we worked very hard designing and refining the Titan Clear iPod case to provide great form and function while being an excellent value at the same time."

The iProng expo team compiled their Best of Show lists by visiting exhibitors displaying new iPod related products during the MacWorld Expo. iProng used several staff to narrow down the large group of new iPod accessories to their final choices. The complete list for the MacWorld 2007 Best of Show can be found on the iProng website at [www.iProng.com](http://www.iProng.com).

GizMac's Titan Clear iPod case for the 2nd generation Nano is expected to be available in February and will have a retail price of \$24.99. Additional information about GizMac and current products can be found on their web site at <http://www.gizmac.com>.
