Potty Training Rewards uses its advent-calendar style cabinet, a push button voice chip, along with visual memorization association to help teach the growing child how to use the potty. PTR comes in two versions, accommodating either the young boy or girl.

Each PTR consists of 24 individual windows containing a chocolate surprise. After the child has successfully used the potty, they press the push button, which gives them a congratulatory message, which says: "Great job you're a big boy (girl) now open a door and find a surprise!"

Under each chocolate surprise, a picture, which matches another on the exterior, is revealed. The child can then match the identical images, serving as a memory game.

Anyone wishing to seek more information, they can visit the PTR web site at www.pottytrainingrewards.com
