PR9.NET February 16, 2007 - AMSTERDAM, THE NETHERLANDS - The USA and Russia based Pilot Group has chosen ChronoPay's payment solutions to be integrated into their e-business solutions - Dating Pro Software, eLMs Pro Software, and Roommate Software. It is planned to add it into other solutions in the future. Pilot Group customers are now able to easily connect to ChronoPay's online payment platform, though which they are able to offer all popular payment methods to their customers.

Pilot Group is a rapidly growing international company with over 7 years software development experience, worldwide clientele, and the team of IT professionals. Clients from the USA, Holland, Germany, and Russia have acknowledged their competence and expertise. PilotGroup is experienced in web development, game development, software development and graphic design.

"Pilot Group provides entire development cycle services, including design, creation, implementation, and support of corporate Internet and Intranet solutions," says Marina Zhilenkova, Senior Sales Manager at Pilot Group. "Our clients are looking for not only a secure, but also cost-effective payment solution. ChronoPay is able to deliver this.

"Pilot Group offers e-business solutions suited for various kinds of business sectors, such as for e-learning", said Ido Schiferli, ChronoPay's Marketing Manager Europe. "ChronoPay is specialised in delivering sector specific payment solutions and because of that we are able to offer Pilot Group' clients payment solutions that fits their specific needs.

###
