*AXIGEN, the professional mail server vendor, announced today the successful conclusion of a new business partnership in Canada, with Calgary-based Getica e-Solutions.*

PR9.NET February 21, 2007 - Romania - Located in the rich Canadian province of Alberta, Getica e-Solutions is a computer security company with over 10 years of experience in network installation, maintenance, and protection, which also provides data backup and recovery and malware (viruses, worms, key loggers) removal services.

"We strongly believe that AXIGEN's secure, integrated mail server really makes network administrators life's much easier. In addition to that, AXIGEN Mail Server is flexible, dependable and intuitive, giving it the edge over the competition," said Adrian Teodorescu, Getica e-Solutions owner. "The distribution agreement signed with AXIGEN is for us a strategic one, as we have the necessary expertise on the Canadian market, while they bring a valuable product for our customers," added Mr. Teodorescu.

"We are really pleased to have acquired a valuable partner in Canada. Given their extensive knowledge of the local market, we are sure that this business relationship will flourish and will be mutually beneficial. We wish to continue extending our distribution network on the North American continent, and bring it to the same level as our already strong European presence," concluded Oana Bornaz, AXIGEN CEO.

###

## About Getica e-Solutions

Getica e-Solutions is a Network Consulting company specialized in installation, maintenance, and protection of computer systems for Small and Medium size businesses. Even though Linux is a very powerful and complete operating system, Windows (TM) based networks are still the majority. As such, we support both operating systems to give our customers more flexibility. For more information, please contact us at [info@getica.net](mailto:info@getica.net).

## About Gecad Technologies

Established in 2001, Gecad Technologies SA, member of the GECAD Group, is the vendor of AXIGEN, a messaging solution for professionals that ensures an efficient and secure worldwide communication environment and business growth for both service providers and companies of all sizes. Currently, AXIGEN is distributed internationally by over 160 partners from 80 countries and manages email traffic for more than 10,000 companies with 6 million end-users.

Our team of seasoned professionals, with 15 years of experience in messaging and IT security delivers cutting-edge products, by developing an innovative carrier-class technology based on proprietary architectures such as AXIGEN GrowSecureTM, AXIGEN SmartProcessingTM and AXIGEN UltraStorageTM.
