PR9.NET February 25, 2007 - North Bellmore, NY - Time is a rare and precious commodity to some and to others there is nothing but. There are unique perceptions of the word and different rankings on the priority level. It's often thrown "off the cuff" in statements made by people each and everyday. "Time is of the essence". "Time sensitive". "I don't have time to vacation, to wait, to waste, to rest". The word "time" is being associated with negative thoughts and emotions more and more in today's "hustle and bustle" society. The "time issue" has virtually taken over peoples lives. For those of us who don't have it, want it; Thus the boom in the Home Based Business Industry. It has become the answer to thousands of people all over the world and with the development of the internet; this industry is rapidly becoming the "time conscientious" Entrepreneurs choice. The "barely scratched" surface of this market is proving to be one, where, individuals are experiencing an abundance of wealth and time. The introductions of new opportunities are happening everyday and there is literally something for everybody. The key is finding that opportunity that is tailored to the individuals needs.

The search for the "perfect fit" for a Home Based Business enthusiast can be quite tedious and overwhelming. There is a lot of "hype", a "sense of urgency" and a "push". Every system/program claims that it is "unparallel" or has the "best compensation". One must be informed, educated, open minded and above all, confident in their individual business venture. Jerry Maurer (<http://www.provencashflowstrategies.com>) is no exception to this process. Jerry is first and foremost a family man and, as such, his searches lead him to what he calls "The Perfect System". The rest of the Internet community know it better as Global Abundance Program or G.A.P. This was Jerry's answer to create a positive twist to the "time issue" and provide the financial security he needed for his family. "In doing my due diligence and discussing every strategy with my wife, Lori, we went the "extra mile" and contacted the CEO and owner of G.A.P., Michael Churchill. If you want the facts, you have to go straight to the source", says Jerry. "Michael's demeanor was pleasant and patient, but he "attacked" the "hard nosed" questions without hesitation and confidence. We liked that", added Jerry. "Michael explained the concept of "passive and residual income" and many other attributes that G.A.P. offers. The system is revolutionary. People who don't have an Internet background or experience in this type of industry can prosper easily and effortlessly. The fact that the system includes Team Leaders that close the "business deals" for you is a real plus. Even the most established Entrepreneurs are utilizing the advanced system to market existing projects and those offered by G.A.P. The income potential is limitless. We don't need to "hype it up" or "push", adds Michael. "Global Abundance Program sells itself".

According to the Alexa ranking system, G.A.P. is within the top 1% of the World Wide Web sites as far as traffic. "Combine that with the marketing tools, the Team Leaders, the marketing system & proprietary products, you get one powerful, money making, time freeing opportunity", says Jerry. "It was time for an online Home Based Business. It was time for me to discover my full potential. It was time to take something so rare, precious and valuable and create more of it....Time.
