*Leaders of IPTV Latino to Discuss IPTV Latino's Unique Approach to IPTV at Spring Video on the Net Explaining How By Combining IPTV, Social Networking, IP Communications, and Proprietary Content for the US Hispanic and Latin American Markets IPTV Latino Has Created the Next Generation TV Network*

PR9.NET March 14, 2007 - Doral, FL – Gregory Keough, the Chairman and CEO of IPTV Latino, the Future of Latino TV ([www.IPTVLatino.com](http://www.IPTVLatino.com)), will be speaking at the upcoming Spring Video on the Net event on March 19th in San Jose, California. Mr. Keough will address the topic of "The Customer in Control: Personalizing IPTV Content" and comment on the state of the IPTV industry and the revolutionary changes taking place in media. Mr. Keough will outline how IPTV Latino has created the television network of the future integrating IPTV, Social Networking, IP Communications, and Proprietary Content to form the premiere next generation Latino TV Network.

Ed Pimentel, CTO of IPTV Latino will also be addressing the topic of "Considerations When Architecting IPTV" discussing the technology behind IPTV Latino's unique next generation TV Network offering for the US Hispanic and Latin American markets.
