EMANIO, Inc. provides EDI maps to QuickBooks™ accounting software for its Unite!Data Integration and TradingPartner Integrator™ EDI mapping software.

PR9.NET March 14, 2007 - Berkeley, CA - EMANIO, Inc. today announced the immediate availability of a new adapter for its Unite! Data Integration and TradingPartner Integrator EDI mapping software packages. Adapters provide pre-built templates for Intuit's popular QuickBooks™ software that allow owners of EMANIO's Unite! and TradingPartner Integrator packages to map their data quickly and with minimal effort. "These new adapters continue our commitment to providing Data Integration and EDI software that is easy to use and powerful," said EMANIO CEO KG Charles-Harris. "These adapters are just the beginning of a concentrated effort to make Data Integration not only powerful but significantly easier," continued Mr. Charles-Harris.

EMANIO's newly announced adapters for QuickBooks' accounting systems are available at a retail price of \$995 and are available immediately to existing customers of EMANIO's EDI and Data Integration products. EMANIO Adapters can be used to accelerate the deployment of maps into the target systems and can cut down on deployment and development times significantly.

EMANIO plans to continue to deliver additional adapters throughout the course of 2007 to continue to provide easy to use, easy to deploy solutions for its customers on a world-wide bases.
