The team at fundVallarta.com (www.fundVallarta.com) has continued their advance in service to the real estate needs of retirees and baby boomers. With the addition of new team member Rod Burylo, fundVallarta.com effectively serves Mexico, the United States and now, Canada with their award-winning panel of financial experts.

PR9.NET March 24, 2007 - Puerto Vallarta, Jalisco, Mexico - International speaker, business author and award winning financial advisor, Rod Burylo has been added to the expert team at fundVallarta.com. This announcement is in response to the creation of comprehensive coverage throughout North America in the development of real estate investment opportunities in Puerto Vallarta, Mexico.

Burylo will be providing his broad range of expertise through a series of seminars hosted by fundVallarta in a variety of US cities over the next several months. FundVallarta.com will play host to a series of educational events designed to assist Baby Boomers in the management of their retirement portfolio. The timing of the events is in response to a new paradigm shift in the culture of finance. Burylo elaborates, "Retirement, as we understand it today, is a new human phenomenon; never before, have so many people been able to enjoy such a significant amount of leisure for such a significant period of time."

Topics covered in these planned events include:

1. The impact of retiring Baby Boomers on the stock market
2. Learn how truly and safely diversify your IRA Portfolio with Real Estate
3. Emerging trends in IRA investments
4. Real estate development in Mexico

Recent statistics indicate there are approximately 70 million Americans and 9 million Canadian Baby Boomers on the threshold of a transition from the workforce to retirement. This presents unparalleled opportunities in the role of a retirement portfolio. FundVallarta.com (www.fundVallarta.com) understands both the unique needs of their clients as well as the unique dynamics associated with traditional portfolio analyses.

Burylo indicates 'business as usual' may be changing, "There is only one reason baby boomers have seen stock prices, generally speaking, rise over their lifetime: there have been more buyers with resources to buy, than there have been sellers with investments to be sold. This is about to change dramatically."

Famed car maker and industrialist, Henry Ford, understood unexpected change when he said, "The economic and technological triumphs of the past few years have not solved as many problems as we thought they would, and, in fact, have brought us new problems we did not foresee"

FundVallarta.com is an investment strategist's clearinghouse seeking to take the guesswork out of Mexico real estate investment. They offer online answers to redirecting an IRA account from a traditional or Roth IRA to a self-directed account allowing for diversity in IRA investing. That diversity includes the purchase of beachfront property in Puerto Vallarta, Mexico.

FundVallarta.com welcomes Rod Burylo and is enthused about the wealth of expertise Rod brings to an already stellar team. Rod Burylo has authored the book *Awesome Client Events* published in 2001 and provides freelance articles and columns to publications in both Canada and the United States. Burylo is also a sought after international speaker and has accepted engagements in Canada, the U.S. and Mexico on business topics and corporate challenges. In 2006, he was invited to be the keynote speaker in Washington D.C. at the National Charles Schwab event "Impact 2006." Burylo was honored with the Advisor of the Year Award in 2004 in Canada. Because of his experience on the subject of client/professional relationship building, Burylo is considered a valued addition to a team that has already seen remarkable strides in Puerto Vallarta property investment.
