PR9.NET March 23, 2007 - Nicosia, Cyprus - Audio4fun Sound Center have just updated their sound collection with more new funny and scary sounds for pickers to free download. Sound Collection can be found at <http://www.audio4fun.com/funnysounds.htm>

The Sound Collection is displayed into separated categories which are Natures sounds, Funny sounds, Animal sounds and Weird and scary sounds. Moreover, there are some further sound effects that help audio clips makers color up their sound file.

The Nature sounds introduce a wide range of wildlife sounds such as ocean sounds, rain sounds, thunder sounds and many more. Most of entries are entirely new.

The Animal sounds have just been added 3 new entries while the current funny animal sounds such as Drunk Pig, Mad cow, or Cat fight attract a lot of sound hunters.

One of most favorite sound centers is Funny sounds that comprise up to 15 entries while the weird and scary sounds seem to be useful for Halloween occasion.

"You can simply click to choose some among. You can also share with your buddies. Or, more personalized sounds can be created by using our Voice Changer Software." said Louise Anderson, Audio4fun Community Manager.

The new-released Voice Changer Software 5.5 demo version gives users 1 hour freely performing with full features of the product. Thus, sound makers should download one to test and make their own unique hilarious sounds. During the release week, purchasers can have in hand this voice making tool at great discounted price.
