National Real Estate Investment Club is proud to announce its three new chapters in Southern California. These new chapters will provide investors in Southern California access to the club's unique blend of educational resources and investment opportunities.

PR9.NET April 16, 2007 - Pleasanton, California – National Real Estate Investment Club (NREI Club) has recently announced the addition of three new chapters in Southern California. The three chapters meet this week April 17th, 18th and 19th at the Hilton San Diego Del Mar, Hilton Irvine, and Hilton Woodland Hills. These seminars will show investors how to maximize their real estate investing profits while minimizing their investment, time, energy and headaches.

"Today is the best time in years to invest in real estate...Come find out why," said Andy Heller, co-author of the Fortune Magazine recommended book: Buy Low, Rent Smart, Sell High. This week, Andy will share with investors how he developed a proven and diversified program for real estate investing that incorporates both approaches and enables investors to take control of their financial futures and build wealth over time. Andy and his partner Scott Frank, who have approximately 40 years of combined real estate investing experience, will help investors minimize their time investment by working smart with their "Buy Low, Rent Smart, Sell High" real estate investment strategy. During their years of experience, Scott and Andy have bought, rented and sold more than 100 properties. They have done this while holding full-time jobs and putting their families first.

Also, we will be presenting an investment opportunity in Indianapolis, Indiana. Learn how to get cash flow positive homes in Indianapolis for only 5% down. You'll learn why Indiana has the right conditions for solid long term growth and appreciation.

The meetings this week will be followed by a workshop on Saturday April 21st, 2007 at the Hilton Irvine. Andy's live workshop will motivate investors to work examples after he shares with them what strategies work well in today's real estate market.
