*Emanio, Inc. announces TradingPartner Complete™ EDI software to make in-house EDI easy to use and seamlessly integrated.*

PR9.NET April 18, 2007 - Berkeley, CA - EMANIO, Inc. today announced the immediate availability of TradingPartner Complete™, a new software bundle designed to make the use of EDI easy and painless for any small and mid-sized business. "Traditionally EDI has been difficult to adopt for small and mid-sized companies because of the technical challenges associated with EDI integration. A business has to learn how to translate EDI into actual purchase orders and invoices" said EMANIO CEO KG Charles-Harris. "EMANIO TradingPartner Complete™ offers these businesses a unique new alternative, a package of EDI software that includes communication and an adapter that automatically integrates their EDI data into their EPR or accounting systems" continued Mr. Charles-Harris.

EMANIO TradingPartner Complete™ allows small and mid-sized businesses to purchase all the software they need to quickly integrate their EDI data into their in-house systems, ensuring that instead of necessarily learning about EDI terminology they focus instead on receiving purchase orders and managing invoices. "With EMANIO TradingPartner Complete™ businesses can relax, use EDI to lower costs while not dealing with the painful aspects of learning EDI" commented Mr. Charles-Harris.

EMANIO TradingPartner Complete™ includes EMANIO's TradingPartner Workgroup™ EDI software, iNetFTP communications software, a vendor specific integration adapter for ERP and accounting systems as well as a five hour block of time for installation and configuration by an EMANIO specialist. TradingPartner Complete™ is available for the following ERP and accounting systems:

- IFS Applications ERP software
- Intuit QuickBooks Software
- Jesta I.S.
- VLX
- Cerner
- MAPICS

EMANIO TradingPartner Complete™ is available immediately at prices starting as low as \$2,480\* and includes a complete set up with support for one trading partner and the first year's maintenance & support. Owners of EMANIO TradingPartner who are current on maintenance & support can upgrade to EMANIO TradingPartner Complete™ at a 20% discount off the standard price. To learn more about EMANIO TradingPartner Complete™ contact an EMANIO Sales Representative at (510) 849-9300 or visit EMANIO's web site at <http://www.emanio.com> for more information.

EMANIO makes business integration easy by providing easy to use and easy to deploy software for data integration and EDI. The company was founded in 1994 and has operations across the United States and in Europe. EMANIO helps organizations solve business requirements through analysis, technology & services, and eMessaging through EDI / XML, ASN / bar-coding solutions, and data integration.

In 1995, EMANIO was the first company to send EDI messages over the Internet and integrate these into backend ERP and Supply Chain Management systems through a single visual tool. With over 17,000 customers, EMANIO provides a broad line of global trading community B2B software and data integration solutions services for supplier and customer e-commerce connection and interaction. In 2002, EMANIO acquired Trading Partner® and OnCall® EDI® from Mercator Software.
