

EDC Gold – The Gold Standard For Making Money Online

RDP Unlimited, April 28, 2007

URL: <http://www.pr9.net/business/ecommerce/5479april.html>

Co-founders Craig Garcia and Michael Corcoran have once again raised the bar by which all other home businesses are measured. EDC Gold, which was launched on November 1, 2006, has literally been taking the Internet by storm.

PR9.NET April 28, 2007 - Charlotte, NC - EDC Gold is the top-level program in a group of three. The company decided to offer this upper level after the tremendous success of the other two levels, Easy Daily Cash (EDC) and Your New Fortune (YNF). These three levels allow anyone interested in owning a home business, the ability to do so. With price points of \$997, \$297, and \$ 69.95 respectively, these programs should fall into everyone's budget.

One thing that draws prospective customers to this company is the 100% commissions. Other things they notice is that the programs come with an incredible offering of software and e-books most with resell rights, the incredible marketing system, and the unsurpassed support of the owners. Craig Garcia and Michael Corcoran are always available by phone and email to provide support to the members, and will even assist members in the sales process. " Craig and Mike have never failed to amaze me with the quality of service they provide, and their untiring efforts to constantly provide new income streams to the members." Says Rodney Price of the co-founders.

EDC Gold, Easy Daily Cash, and Your New Fortune all come with a wealth of training and support, which allow even those new to the Internet the ability to make a substantial income, in a short period of time. Live training is available three times a week on Tuesday, Thursday, and Saturday. For those unable to attend, the training is recorded and placed in the back office for review anytime. The training in the sessions are second to none, and is not a lot of hype with people just talking about how much they have made. It is concise and to the point, on how to be successful on the Internet. Topics such as where and how to market are covered, and as stated by Craig Garcia " We will never recommend any type of marketing, unless we have thoroughly tested it ourselves".

The company has also created a marketing system, which in essence sells the product for the members. The site has audio and video that informs prospective customers, about all three programs, how they work, and why they work. So essentially these programs can be offered on autopilot. "With all that these programs offer there is no reason not to get involved. You can either make money, or make excuses," says Rodney Price of the EDC Gold opportunity.
