Custom Craft Plastics is Shipping New Brochure Holders Specifically for Real Estate Marketing

PR9.NET May 01, 2007 - Santa Fe Springs, CA - Custom Craft Plastics, designer and manufacturer of innovative literature display products, ships new brochure holders designed for real estate marketing.

The new real estate brochure holders from Custom Craft Plastics feature a house design shape with screen-printed accents such as rooflines and chimney. These new brochure holders for real estate marketing can also include optional business card holders; larger brochure holders can have multiple business card holders.

"Custom Craft Plastics has designed new brochure holders for real estate marketing" says Harry Vitto, founder of Custom Craft Plastics, "These real estate brochure holders are great for real estate, mortgage, title, insurance and any other company involved in the home buying and selling process; Custom Craft Plastics brochure holders will get your literature noticed."

Additional information on Custom Craft Plastics and their products can be found on their web site at <http://customcraftplastics.com>. Information can also be obtained by calling the Southern California headquarters at (800) 217-7779

About Custom Craft Plastics

Custom Craft Plastics, Inc. is an innovator in the acrylic plastic fabrication industry. Our company designs, manufactures and silk-screen prints standard and custom products. All our products are hand built for superior quality, yet our pricing is some of the best in the industry for this level of work.

Hand crafting of our items allows us to produce superior looking products as compared to other companies that use molds to form their items. While molded products can be less expensive when mass produced, they tend to leave noticeable imperfections from the molding process.
