PR9.NET May 24, 2007 - New Jersey, US: TeachMeIT, a leading provider of online courses in IT and desktop applications, has released a three-course curriculum on Macromedia Dreamweaver 8. These online courses are designed for users who intend to create high quality Web sites, and are equipped with basic knowledge of software programs like MS Word and familiar with Web and basic HTML.

Dreamweaver 8 allows users to create dynamic Web sites without prior coding knowledge. It also allows users to connect to databases such as MySQL and Microsoft Access to filter and display content using scripting technologies like ASP, ASP.NET, ColdFusion, JSP, PHP and more without previous programming experience.

TeachMeIT Dreamweaver Courses:

TeachMeIT's first course is titled Fundamentals of Macromedia Dreamweaver 8. It describes the process of Web site building and page insertion, and explains how to insert text, links, tables, and forms on Web pages.

The second course, titled Enhancing Web Sites Using Dreamweaver 8, explains how to insert media elements such as images, audio, video, and Flash files in a Web page; how to use frames and layers, and describes the use and creation of Cascading Style Sheets (CSS).

The third course, titled Advanced Features of Dreamweaver 8, explains how to create and use Cascading Style Sheets, and describes templates, library items, and behaviors; and also covers the process of managing and testing Web sites.

Online certification to validate learning: To reinforce learning, all courses have a quiz at the end of each chapter, leading to the mastery module - a comprehensive and final assessment. All users are awarded TeachMeIT Certificates after final assessment to validate the learning experience.

The World loves IT: TeachMeIT online courses are becoming more and more popular worldwide because of their high value-for-money content that enables people from all walks of life to quickly upgrade their IT skills and market value at their convenience. TeachMeIT courses are intuitively designed and contain useful learning aids, exhaustive explanations, and learner friendly interfaces to reinforce learning at multiple levels.
