In the booming but cluttered online home business industry, one program that is rapidly making its mark with integrity, honesty, and leadership for hundreds of home business owners is the Global Abundance Program (G.A.P).

PR9.NET February 02, 2007 - Meridian, Idaho - Matt Massengale, CEO of FinancialLeverageEnterprises.com states, "True to its name, the Global Abundance Program makes it simple for even ordinary people to earn \$700 - \$8500 per sale over and over again without any personal calling, no explaining, no answering questions and no phone calls. All this is making Global Abundance Program a great network marketing success."

The Global Abundance Program scores beyond other run-of-the-mill online automated businesses with its four-pronged strategy for online success:

1. Every Independent Business Owner (I.B.O.) who signs up with Global Abundance Program gets a dynamic website
2. Every sale of a Global Abundance Program system results in immediate profits starting with your very first sale, up to \$8,500 depending on your entry package and qualification level.
3. Every I.B.O. is part of the Universal Dream Team, a training powerhouse with over \$10,000 worth of web conferencing, programs and videos that equip you with all the tools for success.
4. The commission model is unique and is based on the concept of giving back to those who help you succeed.

The Global Abundance Program also has Corporate Managed Marketing (CMM) that includes national TV ads on Discovery Channel, Travel Channel, Golf Channel, MSNBC, CNN, and other major networks plus e-mail, web-based advertising, international business magazines and newspapers to drive millions of interested prospects to the related website. Massengale said, "The I.B.O. need not fret over cold calling and chasing sales figures, the Global Abundance Program's live business advisors call interested prospects and close sales. This completely eliminates any fear of picking up a phone."

With Global Abundance Program offering so much on the platter, is it any surprise that hundreds of novices and seasoned entrepreneurs are choosing the Global Abundance Program. Not just them, even marketing gurus are going for easy home based businesses.
