The United States Institute of Peace is using Big Faceless Organization's PDF Library to create PDF certificates for its online courses.

PR9.NET June 27, 2007 - London, England - Big Faceless Organization (BFO), provider of high quality Java software components, are delighted to announce the United States Institute of Peace (USIP) have chosen their Java PDF Library to create PDF certificates for their online conflict management courses.

Ronald Cole, a spokesman for USIP said, "We have found the (PDF) Library easy to use, and well supported. Our automated system either can create PDF certificates to be sent via email, or printed on formal certificate paper and mailed to the recipient. These certificates are currently being created in English and Arabic, and will soon be created in Chinese, Farsi, Russian and Spanish."

USIP is an independent, non partisan, national institution established and funded by Congress. Its goals are to help prevent and resolve violent conflicts, promote post-conflict stability and development, and increase peace building capacity, tools, and intellectual capital worldwide.
