PR9.NET July 06, 2007 - FARGO, ND – Atlas Business Solutions proudly supported the National Association of Women Law Enforcement Executives at the 2nd Annual Midwest Regional Conference with a donation of Visual Staff Scheduler® PRO (VSS PRO). VSS PRO staff scheduling software is used to schedule employees at local, state and federal agencies, including police and sheriffs' departments, emergency services, jails and other correctional facilities.

"Scheduling officers in a 24/7 environment is a time-consuming challenge," said Jon Forknell, vice president and general manager of Atlas Business Solutions. "Scheduling coordinators at police departments find VSS PRO to be an extremely effective officer scheduling solution."

#### How VSS PRO Police Scheduling Software Prepares Officer Schedules

VSS PRO allows scheduling coordinators to create schedules in less time, ensure shift coverage, reduce overtime expenses, communicate schedule information more effectively, and improve reporting capabilities. "With VSS PRO, I can easily see how any changes to the schedule will impact my shift coverage. This allows us to make better decisions when it comes to approving time-off requests or providing time availability for court duties," said Sgt. Joel Scharf, Patrol Division at the Moorhead Police Department. "Now that I have all of my scheduling information at my fingertips, I can better optimize our rosters. I can make adjustments quickly and move officers between shifts or divisions, instead of paying a lot of overtime hours."
