VevoCart is offering a free fully functional commercial license ASP.NET Shopping Cart. This Cart is especially helpful to SME merchants and developers who do not want to write their own shopping cart script from scratch.

PR9.NET July 09, 2007 - Banglumphulang, Thailand – Vevo Cart is proud to announce that it is offering a free fully functional commercial license ASP.NET Shopping Cart. The script is available for anyone to download and is a great resource for SME merchants, or developers who want to have a starting point to work from when creating their own custom online shopping cart.

The free shopping cart script allows users to sell an unlimited number of products in an unlimited number of categories on their E-Store or other web site and accept payment via 2Checkout, PayPal, and Google Checkout. It also allows sellers to manage sales taxes, coupons, and shipping, as well as send out newsletters to all customers, customize the design of the shopping cart, allow customers to search by product title and description, price, category, and more.

"We are happy to be offering the commercial , fully functional version of VevoCart for free. We think it can help many people out; however, for those who require the ability to customize functionalities, our paid version can accommodate their needs"

Those looking for the ability to create a custom e-store shopping cart with more functionality can opt for the \$69.99 Full Source Code Versions which provides Full C# Source Code, free upgrades for up to 1 year, 6 months of e-mail support, and the ability to customize functionalities.

"I have been thrilled with all of the help I received from the support. I have no knowledge in the technical aspects of creating an e-commerce website. They were patient and even unzipped the files and uploaded them for me with a minimum fee. Thank you for your time and effort." said one customer.

You can visit the site at <http://www.vevocart.com> and learn more about the product, download the free version or purchase the full source code version at <http://www.vevocart.com/Features.aspx>. A demo of the front end and administrative panel of the script is available at <http://www.vevocart.com/VevoCartDemo.aspx>
