Big Cash Express is a unique new home-based Internet business where even online newbies are succeeding.

PR9.NET July 13, 2007 - Kansas City, MO Ralph Lampton former banker and real estate investor has announced a new, and highly automated home business opportunity. This powerful new company that recently launched is called Big Cash Express.

Big Cash Express has a brilliant structure that is designed to help an absolute newbie and past failures make money on the Internet. According to Mr. Lampton it meets the three very important criteria that any business must have to be successful.

The first criteria that Big Cash Express meets, and possibly the most important is its incredible product. Digital Gold is the flagship product and is a comprehensive marketing system and Internet business in a box. It's a blueprint that anyone, regardless of skills or talent can follow. Members learn how to put the system on autopilot and be paid repeatedly for something they did only once.

Big Cash Express meets criteria number two by offering members an amazing Dual Matrix compensation plan. Members will be placed in a 2x2 follow your sponsor matrix, which pays them \$1200 over and over with each cycle, paid weekly. There is no limit to number of times someone can cycle in a week.

The second part of the dual matrix pay system is the very unique Company wide profit sharing plan. The ProfitMax is a 4x6 force filled matrix that is built by the company. For the first time in history the company has found a way to give back 95% of the profits to the members. This has never been done before. Someone will literally be able to generate up to \$72,000 per month in passive, residual income without lifting a finger!

The third criteria Big Cash Express meets is an automated marketing website with three streaming videos that explain the product and compensation plan so anyone wanting to join has a full understanding of how the program works.

The founders of Big Cash Express have designed a system that literally removes every possible failure mechanism!
