*The Power of Mentorship, The Movie officially signs on Mick Moore, The Internet Entrepreneur as co star!*

PR9.NET February 02, 2007 - Hollywood, CA - The smash hit DVD called The Secret was released in March 2006 and according to Time Magazine, sold 500,000 units within the first 6 months. Both The Secret book and the DVD rank as Amazon's top selling items.

Now, just as viewers are beginning to long for a sequel to The Secret; Don Boyer has officially announced something even grander: The Power of Mentorship, The Movie. A film by some of the top teachers in 'The movie 'The Secret'. featuring experts in wealth building such as Bob Proctor and Marie Diamond from The Secret, Don & Melinda Boyer from the Best Selling "Power of Mentorship" book series, and Mick Moore The Internet Entrepreneur. There are 21 teachers featured in this film.

The film is being produced and directed by David Scandlyn who has produced television shows for various studios such as FOX, THE WB and KTLA. and has been in the visual effects industry for over 12 years. His work can be seen on television, movies, cartoons, and video games such as Texas Hold Em. His most recent work is with Steven Spielberg and Michael Bay's, TRANSFORMERS MOVIE.

At the core of the Power of Mentorship movie is Don Boyers' central philosophy called The Law of Attraction. In fact, the movie itself was inspired by this very same law when the producer, Don Boyer wrote a book by the same title in 2006. Don Boyer suggests that getting what you want out of life is a predictable outcome if one can master the principles outlined in the book. The law of attraction is not some strange New-Age method of thinking, it's the very foundational law of how life works on this planet It is no different in operation or origin than the law of gravity or the law of Physics".

The Power of Mentorship movie is a transformational movie. It starts where the secret left off and your life may never be the same after you watch this movie. In a sense, it is expected to create the same kind of effect as the Secret and the 2004 hit cult movie 'What the Bleep Do We Know'. The movie has created such a buzz, it is already being touted as the 'Must See' film of 2008 from countless mass media markets.

But just as the genie in The Secret proclaimed, Your Wish Is My Command, we now find delivered to our doorstep a step-by-step path everyone can follow. This movie is the most comprehensive training for mastering wealth creation philosophies ever created.
