SoluSoft Technologies Pvt. Ltd will display its range of innovative corporate IT solutions in GITEX 2007, Dubai. With the theme 'Innovation Invention India', SoluSoft will display a wide range of corporate IT solutions and services from its Technologies, Embedded and Graphics department. The team will also demonstrate the new N2 Lexica, a lightweight server-based search engine, SNAPS Security and Network Appliances and Xpress Blogs, instant search for xpress people.

PR9.NET August 23, 2007 - Ahmedabad, India - SoluSoft Technologies Pvt. Ltd., a leading provider of Business Process Solutions will be displaying its range of innovative hi-tech products and services from its Technologies, Graphics, Embedded department from 8th to 12th Sept at GITEX 2007, Dubai. The company takes this opportunity to explore the Middle-East market with their presence at Indian Pavilion, booth no. E7-43.

With its theme 'Innovation Invention India', SoluSoft will display its wide range of innovative solutions, including business process solution, electronic board-level and PC appliances to graphical offerings that can serve as go-to-market solution. On show will be the new N2 Lexica, a lightweight server-based search engine, SNAPS Network Security Appliance and Xpress Blogs, instant search for xpress people.

The SoluSoft team at the stand will be demonstrating various solutions to the visitors. The solutions are catered for various industry verticals. An insight to integration of the solutions with other systems will also be a major highlight for the show.

"SoluSoft's solutions are the outcome of intensive R&D which enables to unlock new levels of information integration, allows collaborative governance and provides knowledge-based decision-making to achieve new levels of performance. GITEX is an important platform to showcase the innovative solutions developed by our R&D team. With this debut participation we look forward to build channel partners and new clients from Middle-east market." said Mr. Kiran Thakrar CEO SoluSoft Technologies Pvt. Ltd.
