Zafin Labs moves to its new office in the Singapore on September 5, 2007

PR9.NET September 08, 2007 - Singapore - Zafin Labs, the leading provider of Customer Centricity solutions to Global Financial Service Providers, is pleased to announce the completion of its move to its new offices in Singapore. The state-of-the-art offices are located at Level 57, Republic Plaza I, Raffles Place, at the heart of the financial district of Singapore.

Jeroen Thijs, Managing Director – Key Accounts said "Customer centricity solutions are placed high on the strategic agenda of the main banks in the region and especially so in Singapore. By moving to our new premises in the heart of the financial district, we can service our current and prospective clients even better".

Earlier this year, The Banker Magazine awarded Zafin Labs its prestigious 2007 Technology Award for the Best Retail Banking Project for Zafin Labs' work with HDFC Bank. Zafin Labs also opened a second European office in Berlin in June, to better meet the needs of its clients there and to serve new markets in Germany, Austria and Switzerland.
