Virtual Professionals Are No Longer the Best Kept Secret of Successful Business Owners.

PR9.NET September 13, 2007 - Orlando, FL. FINALLY LEARN THE #1 SECRET SUCCESSFUL BUSINESS OWNERS KNOW, BUT AREN'T WILLING TO SHARE.

Technology and short attention spans are pushing small and medium size companies to find creative ways to gain momentum and reach profitability faster. With that goal, savvy business owners scramble to delegate non-income-generating tasks and focus their time on building customer relationships and revenue. Top producers found THE SECRET way to do this affordably. They hire virtual professionals to handle the administrative, marketing, customer service and technical tasks. Doing so releases valuable time to establish brand recognition and gain new clients. The rapid success is directly attributed to the ability to focus on efforts that produce monetary returns. All other tasks are confidently handed over to virtual professionals.

Business have finally realized, after several years of working with bricks-and-mortar staffing agencies or hiring staff themselves, that their needs are very different from what they used to be years ago. This is greatly due to the growth of the Internet and lack of employer loyalty. THEVirtualProfessionals.com, the fastest growing virtual staffing company on the Internet, conducted formal research, including surveys of traditional staffing agencies, to determine how they should be shaped to best meet the needs of small to medium size companies. Consequently, THEVirtualProfessionals.com introduced its unique services to the market and immediately became inundated with service requests.

Their model emphasizes the use of independent contractors working on the behalf of clients from a remote location--typically from home offices. "The services are designed to be particularly responsive to the unique needs of entrepreneurs and executives," according to Tiffanie Tillman, founder of THEVirtualProfessionals.com. Entrepreneurs can now find the help they need with just a few clicks on the Internet.

A few of the IMMEDIATE BENEFITS of using THEVirtualProfessionals.com:

- Productivity is accelerated. All work is performed via the Internet, fax, email or other type of technology.
- Access to services from top-notch professionals within any industry at an affordable cost, 24 hours, 365 days a year.
- Additional office space or equipment is not needed. Virtual professionals come equipped with all of the latest technology in their own offices.
- company down-time, etc.
- Avoid tax related expenses occurred when hiring an employee.

THE REASON COMPANIES ARE MOVING THEIR BUDGETS TO WORK WITH VIRTUAL STAFFING AGENCIES CAN BE SUMMED UP IN THREE WORDS: IT'S SMART BUSINESS!

Companies only pay for the services they need and only at the time they need it. The financial benefits greatly outweigh the traditional staffing methods. As independent contractors, virtual professionals are only as successful as their clients. Being in business for themselves forces them to remain competitive in the industry by ensuring they give 200% of their efforts to every project. One of the more unique benefits is the ability to pay-as-you-go. No contracts. No padded fees. If assistance is needed for only 5 hours a week, you only pay for 5 hours of service. Need to skip a week or month? No problem there either. Businesses have complete control over how often they utilize the service.

Tiffanie Tillman can certainly validate the shift from traditional staffing methods toward the more effective online staffing companies. Her office receives numerous applications from contract staffing recruiters interested in taking advantage of her online opportunity while still generating impressive incomes in this explosive industry.

Tiffanie and her team of virtual recruiters understand the needs of busy entrepreneurs and corporate managers. She is passionate about helping small to medium-sized businesses grow and sustain their business by providing affordable, virtual assistance. She takes pride in being a part of her clients' success. Her mission is to be the #1 provider of virtual staffing services by providing top-notch, fast and easy to use services, 24 hours, 7 days a week.
