Avnex (www.audio4fun.com) introduces the Media Master Package that is viewed as one of the best toolkits for media professionals.

PR9.NET September 13, 2007 - CY,CYPRUS - The Media Master Package is a combination of AVnex's two best-known pieces of software: AV Voice Changer Software Diamond, and AV Music Morpher Gold, both of which continue to receive high ratings on www.download.com, one of the world's top download websites.

Released in 2001, VCS is popular software for fun and recreational online zones. It has been downloaded over 500,000 times since its first launch.

MMG rolled out into the market later in 2004, and soon caught the interest of online users. Last August marked its third anniversary and the celebration for its 3 million members worldwide. These two software programs work well for specific uses, and when combined together, they become a comprehensive toolkit for sound and voice manipulation.

Avnex is giving out this kit as Media Master Package in order to promote full-featured and powerful products for the users. "This idea came to us recently," said Tracy Norman, Brand Manager of VCS line, "When one of our loyal members sends us his work, a voice story of a modern version of the Cinderella fairy tale. We were very surprised. It is all his own work, including the female voices. We thought it was fascinating, and we thought, how wonderful to get other users to do similar work!"

"This shows that our products are not merely tools for fun, but for professional works as well, real great artistic works," added Louise Anderson, Brand Manager of the MM line, "And for the convenience of our users, we provide precise, step-by-step instructions on how to use our products to produce their own audiobooks like that, all free on our website."

Avnex also said that they are providing the main prize support for the Audio Contest to be held by Make4fun.com— a website of free, fun stuff, including audio and video files. The Contest will be a great opportunity for all experienced or newbie users to meet and share their love for media.

You can visit www.audio4fun.com/promotion.htm for more information on the new Media Master Package and the Audio Contest.
