The 52nd CHEM Show Educational Conference, taking place hand-in-hand with North America's largest process equipment and technology exposition, will concentrate on broad-scope to industry-specific topics important to the chemical process industries (CPI) professional, including Smooth, Safe, and Secure Processes

PR9.NET September 19, 2007 - WAYNE, PA - The 52nd CHEM Show Educational Conference, taking place hand-in-hand with North America's largest process equipment and technology exposition, will concentrate on broad-scope to industry-specific topics important to the chemical process industries (CPI) professional, including Smooth, Safe, and Secure Processes. The Smooth, Safe, and Secure Processes sessions will focus largely on ways to effectively maximize batch process manufacturing productivity and profitability.

In this track, Deacom President Jay Deakins will discuss the utilization of an enterprise software system to simply and securely manage all aspects of a batch process manufacturer, including formulation and lab management, regulatory reporting, lot tracking, quality control/quality assurance, inventory control, sales order entry, purchasing, accounting and financials, retail point-of-sale (POS), and labor tracking.

Chemical manufacturers are invited to attend Deakins' presentation, entitled "Complexity Made Simple: Using a Single Software System for Your Chemical Manufacturing Business" at 9:30 a.m. on Tuesday, October 30th at the Javits Convention Center in New York, New York.

To learn more about the DEACOM Integrated Accounting and ERP Software System or to schedule an online demonstration, call 610-971-2278 ext. 15 or visit www.deacom.net.
