OSI Consulting implements leading SaaS solution to proactively manage worldwide Services operations.

PR9.NET September 25, 2007 - Austin, Texas – QuickArrow, Inc., the leader in SaaS Services Automation, announced today that OSI Consulting has selected their solution to further automate and track their Services operations. Beginning next month, OSI will deploy QuickArrow to 450 consultants worldwide.

QuickArrow's PSA solution streamlines processes by incorporating Project Management, Resource Management, Financial Management, and Advanced Reporting capabilities in a single solution. OSI expects increased efficiency of projects and will leverage QuickArrow's client access portal to deliver real-time project visibility to and enable deeper collaboration with their clients.

"Our global Professional Services network is devoted to finding, creating, and implementing the most appropriate and efficient automation solutions for our clients, and this is a prime example of selecting a proven solution rather than reinventing one," said Meg Boring, OSI Consulting Vice President of Operations. She continued, "As our business continues to rapidly expand across North America, it's imperative to have an online solution to automate, consolidate, and manage our Professional Services."

A key factor in the selection process for OSI is the speed to value available with QuickArrow's SaaS solution. "Waiting 6 to 12 months to install, assemble, and customize an on-premise solution is difficult when organizations are expanding so quickly," said Kevin Bury, QuickArrow Vice President and COO. "After utilizing our solution, Professional Services organizations, such as OSI, have quickly realized concrete, operational efficiencies."

###

About OSI Consulting

OSI Consulting, a leading information technology services company, creates business value for customers through the innovative application of advanced technologies. Clients worldwide benefit from OSI's agile approach toward building global solutions. Headquartered in Woodland Hills, California, OSI has been providing enterprise and e-business consulting services since 1993, leveraging a strong foundation and ongoing relationship with Oracle. OSI has helped hundreds of clients redesign business systems, optimize supply chains, integrate, and externalize applications, and transform enterprise processes through e-business and enterprise initiatives. About QuickArrow

About QuickArrow

QuickArrow's PSA solution helps services organizations better manage the three things that matter most: people, projects, and performance. Designed to deliver the critical visibility needed to optimize services delivery, QuickArrow's Software as a Service (SaaS) solution fully integrates with leading SFA, CRM, and financial applications, replacing homegrown solutions and labor-intensive spreadsheets to automate workflows and streamline operations.

Worldwide, more than 26,000 users and 300 services organizations spanning software, IT Services, management consulting, hardware, environmental, and healthcare count on QuickArrow every day to increase resource utilization, capture more billable hours and expenses, and enable more effective decision-making to drive top and bottom-line growth.
