Business Advancement Center is the nation's fastest growing business development firm specializing in Franchising businesses internationally and nationally. Recently the firm was chosen by the Learning Annex to teach their franchising class to their small business customers.

PR9.NET October 04, 2007 - New York, NY - This October 9 Business Advancement Center will teach a class for the New York Learning Annex called "Turn your Business or Idea into a National Franchise!" Co-founders and franchise experts Martha Albuquerque and David Borish will teach the class.

With retail giants making competition even more difficult, it is hard to stay in business or even go into business without the hopes of expanding and to GO BIG! Here's your chance to earn big \$\$\$ and put your entrepreneurial skills into action! In this informative and entertaining class you will learn everything you need to know on how to turn your business or idea into a national franchise.

The class will discuss:

- What is franchising
- How to franchise your business and even an idea
- How you profit from franchising
- How to market once you are franchised and much more!

"Franchising used to be a process only accessible to top lawyers and million-dollar firms; our goal is to make this accessible to all businesses, even mom and pop shops" says Martha Albuquerque.

"The biggest misconception," declares David Borish, "is that in order to franchise your business you need to have more than one location and that you have be in business for a certain amount of time, we'll show you direction and let you know at point your business is ready to franchise."

David Borish and Martha Albuquerque were owners of the first New York based eBay drop off center. Business Advancement Center, LLC has a team of experts that have been in the industry for over 30 years and is located in New York City. They have franchised over 200 small businesses worldwide.
