PR9.NET October 16, 2007 - Fortaleza, Brazil, Estetica Brasil is a medical tourism company specializing in providing plastic surgery combined with a vacation. It works with a select group of highly skilled plastic surgeons in Fortaleza, Brazil. Estetica Brasil announced the launch of Light Lipo, a liposuction procedure performed in the surgeon's office, with no hospital stay required.

Fortaleza, Brazil, Estetica Brasil announced the launch of a new liposuction technique, the Light Lipo. The Light Lipo is a technique used for the treatment of small fat deposits in up to 3 areas. It is performed in the surgeon's office and does not require a stay in the clinic or in the hospital. The patient walks directly out with minimal bruising and can resume his/her normal activity the next day.

"We are proud to introduce this new technique, developed by our team of plastic surgeons here in Fortaleza, Brazil. For patients with a specific profile, namely with limited fat deposits up to 3 areas, this is an ideal, convenient and unexpensive solution.", said Vincent CHASTEL, Managing Director of Estetica Brasil.
