*ForeignTRADEX introduces a new industrial directory connecting suppliers and buyers of hose, tube and tubing products for European and Australian markets.*

PR9.NET November 20, 2007 - Westboro, MA - The global industrial supply trade portal ForeignTRADEX, formerly Foreign Trade Exchange, announced this morning the official release of its new and unique hose and tube buying guide designed for companies throughout Europe, Australia and New Zealand. According to ForeignTRADEX, the new guide is the only one of its kind focusing on all kinds of plastic, metal and rubber hose and tubes for a broad range of industrial, construction, engineering and manufacturing applications.

The guide is located at [http://www.ForeignTradeExchange.com/suppliers/hose\\_tubes.html](http://www.ForeignTradeExchange.com/suppliers/hose_tubes.html) which includes direct links to supplier sites, catalogs, company profiles and product specifications on hose and tubing products such as chemical and electronic hose, automotive, aerospace, food and beverage hose, medical tube, hydraulic hose, irrigation and lubricant hose, high pressure and low pressure hose, silicone, thermoplastic hose, stainless steel tube, copper and float tube and other types as well as hose and tube fittings.

Although the Hose and Tube Buying Guide is utilized by companies worldwide, it is mainly intended for engineers, construction companies, manufacturing plants and other industrial buyers in Ukraine, Bulgaria, Denmark, Norway, United Kingdom, Croatia, Australia, Switzerland, Lithuania, Romania, Slovenia, Slovakia, Turkey, Luxembourg, Sweden, Ukraine, Hungary, Ireland, Czech Republic, Finland, Poland, Austria, Italy, New Zealand, Greece, Spain, Portugal, France, Belgium, Germany, Russia and Netherlands.

"This is our opportunity to show the industrial community in Europe that ForeignTRADEX can help users save a lot of money on hose and tube products by connecting them with the most suitable suppliers in the region in which they can easily compare product value," says Donald LaBelle, CEO of the company. "Unlike most leading industrial directories we evaluate the majority of manufacturers and suppliers we feature in our guides and only approve the ones we feel are capable of meeting the needs of engineers and other industrial buyers."

ForeignTRADEX was recently awarded by <http://www.IndustrialCOOP.com> as one of the fastest growing industrial portals on the Web focusing on Europe, Australia and New Zealand. At the request of its users the company plans to include a number of manufacturers and suppliers of hose and tube products in South Africa at the beginning of 2008, according to Mark Hamilton, Business Director of the company and Vice President of its European division.
