Hosted Solutions announces that mShopper is relocating its core infrastructure in their world class Boston Data Center facility.

PR9.NET January 08, 2008 - Boston, MA & Boulder, CO - Hosted Solutions, the East Coast's premier data center and managed services provider announces today that mShopper, the leader in mobile shopping, has selected Hosted Solutions to provide its managed hosting needs for the next three years. The Boulder, CO-based corporation determined the need for securing a partner who could deliver a fully managed enterprise infrastructure and 100% network uptime to support their hosted applications. The decision utilizes Hosted Solutions secure network to provide reliability, security, and availability to mShopper's technology hardware and applications.

mShopper is receiving Hi-Touch dedicated servers, managed firewall, SPLA licensing, OS management, managed backups, and network connectivity, which are monitored and maintained by Hosted Solutions at its Boston Data Center facility. In providing all of the services, mShopper is entrusting Hosted Solutions to manage their entire application infrastructure.

"We primarily chose to work with Hosted Solutions because of its highly regarded reputation of security and reliability within the industry. In delivering a product or service in a hosted model, guaranteed availability and support for our environment is critical to our success," said Alec Karys, Chief Technology Officer, mShopper. "By utilizing Hosted Solutions' tailored enterprise managed hosting solution, our technical team has the flexible platform necessary to deliver our cutting edge application, without the hassles of everyday IT functions. Hosted Solutions truly is a partner with our long term success in mind."

"mShopper's unique and innovative on demand application can fundamentally change the way the general public makes critical purchases," said Gary McAuliffe, Vice President of Business Development and General Manager for Hosted Solutions Boston Data Center. "As their business continues to grow and adapt, they need IT systems and operations that are as visionary as their company. mShopper recognizes that Hosted Solutions can provide them with a superior managed solution that will support both their current business objectives and future growth. This is a great example of how Hosted Solutions' experience at providing highly-available and cost-effective IT solutions for business applications and technology investments can allow our clients to remain focused on their core competencies."
