Hosted Solutions announces the details of their reception showcasing their latest additions to their Raleigh Data Center.

PR9.NET January 10, 2008 - Raleigh, NC – Hosted Solutions, the East Coast's premier data center and managed services provider announces the details of the Raleigh Data Center "Grand Reopening Party" at 5301 Departure Drive in Raleigh on January 17th from 6:00PM to 8:00PM. This event will showcase the expansion of the facility, making it one of the South's preeminent data centers. Hosted Solutions' new 18,000 square foot addition was designed to provide a high availability platform to support the company's aggressive growth strategy in the RTP market.

The expanded 31,000 square foot facility features robust and fully redundant electrical systems, HVAC infrastructure, and multi-provider network access deployed in a best practice 2n+1 configuration to maximize redundancies. The Raleigh data center's advanced physical security and next-generation building automation systems assure a secure and optimal operating environment. Hosted Solutions' data center facilities are move-in ready, physically secure facilities with the power and cooling capabilities to support critical enterprise applications, offering maximum flexibility as customer needs evolve. Hosted Solutions' SAS 70 type II certified Raleigh data center boasts a robust line of Hi-Touch managed services, and the facilities are fully managed by its world-class operations and engineering teams supporting mission-critical applications 24/7.

The expansion features:

• Infrastructure enhancements.

• New state of the art Network Operations Center (NOC).

• Unique staging area where customers will be able to import, build, and test their server environments in a developmental setting.

• Disaster recovery suites making business continuity seamless.

According to Rich Lee, founder and CEO of Hosted Solutions, the additional square footage in the Raleigh data center facility will provide Hosted Solutions with the ability to support its existing and new customer growth. "The demand for managed hosting services is growing rapidly and the Raleigh data center expansion lets us meet that need in a manner that bolsters our industry reputation of reliability, security, and redundancy" said Lee. "Hosted Solutions' success has been due to our commitment to customized Hi-Touch hosting solutions backed by an unmatched level of personalized service in enterprise class facilities."

The company will host an invitation-only affair on January 17th, 2008 from 6:00PM to 8:00PM at the facility to give guests a behind-the-scenes look at the technology. The "Grand Reopening Party" will also feature statements from the reception's sponsors Dell, Cisco, EMC, and Alert Logic on how their products and services are utilized in the data center space. To attend the event or for more information please contact Matt Barker at (919) 882-3029.
