Allbase Affiliate Program enables webmasters to earn top commission for sales of the Allbase Suite software.

PR9.NET January 21, 2008 - BARRINGTON, IL - Allbase, Inc., an emerging leader in Enterprise Resource Planning (ERP) solutions, is pleased to announce the launch of its webmaster affiliate program. Its flagship product, the Allbase Suite, is a web-based business management solution aimed at SMBs.

The Allbase Affiliate Program allows website managers to share in the profit from sales of Allbase Suite software. Affiliates are invited to place custom links on their website or email to www.allbase.com. A commission is earned for each referred sale and subsequent support.

There is no limit to the amount affiliates can earn. Not only are affiliates paid for initial sales, but also for ongoing fees, including monthly hosting and service. Commission checks are mailed out monthly.

"We have experienced incredible success online and now invite you to share in that success", says Bert Johnson, president. "This is the perfect opportunity for website owners to earn additional revenue by partnering with a growing market leader."

The program offers a secure and sophisticated reporting system for tracking click-throughs, sales, and commission statistics in real-time. Affiliates have access to marketing materials, training, and dozens of pre-made banners.

There is no cost to participate in the Allbase Affiliate Program and new affiliates can get started in as little as five minutes.

For more information, call (224) 848-6144 or (866) 77-ALLBASE toll-free in the US, email press@allbase.com, or visit <http://www.allbase.com>.
