Titan Clear iPhone Case with Holster to be Released in New Case Colors.

PR9.NET January 22, 2008 - Torrance, CA – GizMac Accessories, designer and manufacturer of innovative products for the Apple iPod and iPhone, announce their Titan Clear iPhone cases will be available in color.

Titan Clear iPhone case has been available only since late December, but GizMac is announcing and displaying a collection of Titan Clear for iPhone in colors. These new colored iPhone cases will join the currently shipping clear version and will provide popular, yet eye-catching iPhone case colors.

"GizMac's original Titan Clear for iPhone case is great for people that want to see the Apple iPhone through crystal clear polycarbonate, but the addition of colors will make the difference for others" explained Ken Vitto, Marketing Director for GizMac Accessories, "These cool looking new colors can take on slight color changes depending on lighting and angle of view."

The Titan Clear case protects the iPhone with its tough, clear colored polycarbonate shell, but still allows some of Apple iPhone's striking appearance to show through. The translucent color combined with the curves of the case produces subtle color changes that make the Titan Clear iPhone case unique.

Colors for the new Titan Clear iPhone case are smoke and pink. Smoke is a form of black that appears darkest on the curves, yet can exhibit an almost pewter look on the front and back in bright light. Pink is slightly luminescent and can be considered a "hot" pink, while bright light will show some red with traces of orange.

The Titan Clear iPhone case in black and pink colors will retail for \$34.99 U.S. and will be available late January. Additional details can be obtained on the GizMac Accessories web site at <http://www.gizmac.com>.
