Anti-Aging Medicine Board Certified Dr. Joseph G. Spano Endorses Preferred Medical Supplements. He has successfully combined traditional medical techniques with alternative and complimentary therapies to create a comprehensive and integrated approach to treating his patients.

PR9.NET February 25, 2008 - NAPLES, FL - Preferred Medical Supplements is pleased to announce the endorsement of this product line by Dr. Joseph Spano, a respected physician with more than 35 years of experience. Dr. Spano is board certified in both internal medicine and anti-aging medicine. He has successfully combined traditional medical techniques with alternative and complimentary therapies to create a comprehensive and integrated approach to treating his patients. Dr. Spano states that he has been utilizing this line of products himself and has been recommending these products to his patients.

In a statement from his office, Dr. Spano said, "Consumers, physicians, and healthcare providers are looking for products that are safe, unadulterated, and have documented purity and potency. I recommend Preferred Medical Supplements products because I know they are manufactured in a facility recognized around the world for setting the standard of high quality and purity as well as being certified by multiple industry overseers. This knowledge gives me great confidence in recommending Preferred Medical Supplements. Their products are caffeine, alcohol, and sugar free, and provide superior benefit for me and for my patients."

Preferred Medical Supplements is a reputable and rapidly expanding nutraceutical and medical food company based in Naples, FL. They offer their products online through www.PreferredMedicalSupplements.com, and through individually selected and approved retail outlets. Persons who are interested in learning more about Dr. Spano and about Preferred Medical Supplements may visit www.PreferredMedicalSupplements.com.

Dr. Spano says, "It is common knowledge that American diets are nutritionally unsound. This is confirmed by the epidemic of obesity and overweightedness that exists. Even those that are of normal weight and appear to be fit may be deficient in essential vitamins and minerals. With life in the fast lane, we tend to choose prepackaged ready-to-eat processed foods devoid of essential nutrients. Even individuals who are careful about their diets are eating foods grown from farmlands that long ago have been depleted of trace minerals and other vital elements. Chemicals, pesticides, and contaminants make it crucial that we take supplements that will help our bodies detoxify.

"Preferred Medical Supplements utilizes only GMP-certified manufacturers. One of their largest suppliers, Metagenics, is an industry leader in pharmaceutical quality supplements sold through physician and medical practitioner offices. Preferred Medical Supplements offers these products directly to you. In addition to providing quality products, they also conduct seminars free of charge to help you learn more about nutrition and your body, to help determine which supplements are right for you and your family so that you are receiving proper nutrition from supplements of superior quality.

"It is a common fact that most American diets are nutritionally unsound. With our busy lives and hectic schedules, we do not have the luxury of settling for just any supplements and hoping that they provide adequate nutrition. I know Preferred Medical Supplements provides high quality products that are based on research and are evidence-based. That is why I recommend Preferred Medical Supplements."

Joseph G. Spano, M.D.
