*Author John P. McTernan makes the bold yet substantiated claim that harsh treatment towards Israel is directly correlated with natural, political, and economic disasters in America. In his new book, As America Has Done to Israel, McTernan delves deeply into biblical prophecy, linking past and present historical happenings to their roles in validating God's end-time declarations.*

PR9.NET February 01, 2008 - United States, New Kensington, Pennsylvania – To claim that favorable or harsh treatment towards Israel is directly correlated with natural disasters in America is a bold statement to make, but this is exactly what John P. McTernan does in his new book, As America Has Done to Israel (April '08).

As America Has Done to Israel provides example after example of paralleled incidents, supported with documentation, maps, and never-before-seen photography. McTernan covers taboo, unacknowledged subject matter, such as the American Nazi movement of the 1930s, and also delves deeply into Biblical prophecy, linking past and present historical happenings to their roles in validating God's end-time declarations. "If Israel is understood spiritually and not just politically, an entirely new and exciting reality of the time we live in unravels" (McTernan).

McTernan argues that the validity of the Bible can be proven through the history of the Jewish people. The bottom line stands strong throughout the text: American support of Israel is to be taken seriously.

John P. McTernan is the co-founder of International Cops for Christ and a former US Treasury agent. His valuable insights have afforded him the opportunity to appear on broadcasts such as Viewpoint with Chuck Crismier, Sid Roth's It's Supernatural, Messianic Vision, and Inspiration Today with David Cerullo.
