SIIA Judges Vote Senti7 as Finalist Among Best Medical and Health Information Products.

PR9.NET February 14, 2008 - Bellevue, WA - Pharmacy OneSource today announced that Senti7 was chosen by the Software & Information Industry Association (SIIA) as a 2008 Codie Award Finalist. Senti7 was nominated in the "Best Medical and Health Information Product" category, which awards the best medical/health related information solutions used by professional medical staff.

With Senti7, clinicians have a single point of access to lab results, medication records and patient demographics, which are combined through HL7 interfaces. Clinicians can write rules against the data to identify and flag at-risk patients.

"I am thrilled that the SIIA has recognized our commitment to improving patient safety," said Matt Martin, Vice President of Technology at Pharmacy OneSource. "Choosing Senti7 as a finalist for Best Medical and Health Information Product reaffirms my belief that we are using the best technology to innovate and reach that goal."

Over 250 judges from the trade press, consulting, educators, IT specialists and other knowledgeable, but neutral, experts have reviewed all of the products entered. The Finalists were chosen from more than 1,000 nominations submitted by more than 600 companies.

"Competition is tough this year and that makes selection as a Codie Finalist a real achievement," said Ken Wash, SIIA president. "All the companies on this year's list should feel justifiably proud of their recognition."

The next step in the process brings the Finalist products before the SIIA members for a vote to determine the winners in each category. For a complete list of the 2008 Codie Award finalists, please go to: www.sii.net/codies/2008/finalists.asp.
