*Styleflip.com is proud to bring a whole new world of style to your gear. You upload your own custom designs and images and create your very own, unique style that sets you apart from the rest. Once you finish the design process your image will be transformed into a one of a kind, sophisticated, protective layer that becomes one with your gear until you decide to change it up with something fresh.*

PR9.NET February 13, 2008 - Minneapolis, MN – Styleflip.com is providing DJ's and Producers with a new way to stick out from the pack. An online service that has just launched, Styleflip.com allows users to customize their gear by creating their own unique skins. Mike Tadros of Styleflip.com states that DJ gear and Pro Audio is currently available to get customized with MP3 Players, laptops, cell phones, video gaming systems, and a wider selection of DJ and Pro Audio gear to come in the future. Styleflips are made out of vinyl and coated with a clear laminate coating for additional protection. Ranging in price from \$10 (USD) to \$49.95 (USD) the service claims to turn any design into a unique protective layer that is easily applied and removed without leaving a mark. A service available to DJs and Producers all over the world, Styleflip is backing up their unique service with a 100% satisfaction guarantee.

The site has been setup with the designer in mind allowing the user to upload, move and resize their images along with a preview that shows what the image will look like as they style it. The process even includes an optional information layer so the user can reinsert their knob control functions in whatever color they would like ensuring it goes well with their design.

After trying the 'Style It' option on a variety of gear my mind was running wild with ideas on how to change it from the bland look they usually have. Perfect for the nightclub looking to brand their gear, the musician looking for a unique look, or anyone that wants to make their gear 'theirs', Styleflip.com seems to be a promising addition in the world of customization.

Quotes:

"This is a great new concept that will have a perfect home with djs and musicians all over the world." Mya Carlson – mnvibe.com

"With endless possibility, there should be no one staring at plain music setups and the back of blank laptops." David Eckblad – vitalculture.com

"Styleflips allow anyone that wants to add life to their gear to do so at a low price without the worry of damaging their gear! Michael Tadros – Styleflip.com

"This product is not only perfect for someone looking to add a little creativity to their setup. I can see club owners, promoters, records labels as well as many of us using Styleflips to brand their name and logo. This will be an excellent marketing tool" Matt Guertin – Styleflip.com

"Styleflip.com is amazing!! The site is so easy to use. I can upload my own images, make adjustment and even preview my design before I checkout! Plus, you can even drop your knob control function back in over your final design. They were thinking with this site!" Ronald Cortin – Styleflip.com Customers
