The on-line industrial supply B2B trade portal and global marketplace ForeignTRADEX, has launched a new Precision Machining and Equipment Buying Guide focusing on European and Australian markets.

PR9.NET February 19, 2008 - Westborough, MA - ForeignTRADEX, a global industrial trade directory and division of Donald LaBelle Associates, announced today the release of its new directory focusing on precision machining equipment and services. According to the company, the publication is designed to promote machine shops and manufacturers of precision machining equipment to an international audience of engineers, OEMs and other industrial buyers.

The Precision Machining and Equipment Directory from ForeignTRADEX is located at http://www.ForeignTradeExchange.com/suppliers/precision_equipment.html and includes offerings from companies specializing in a wide range of machining services as well as suppliers of precision hand tools, instrumentation, measuring equipment, CNC machines, milling, drilling, grinding, vertical turning and other precision equipment.

Maria Lema, spokesperson for ForeignTRADEX said the company's new publication is designed to help companies in need of new or used precision equipment or precision machining services. She explained, "Although the directory includes offerings from machine shops and precision equipment manufacturers worldwide, the focus of the publication remains on Europe and Australia."

The Precision Machining and Equipment Directory includes offerings from manufacturers and suppliers based in or serving Sweden, Ukraine, New Zealand, Norway, United Kingdom, Slovakia, Croatia, Slovenia, Australia, Czech Republic, Bulgaria, Switzerland, Poland, Belgium, Hungary, Spain, Lithuania, Romania, Portugal, Turkey, Italy, Russia, Greece, France, Ireland, Austria, Netherlands, Denmark, Luxembourg, Finland and Germany.

"No matter what kind of precision machining services, precision tools or equipment you need, chances are you'll find a supplier in the directory that can meet your needs," says Mark Hamilton, Business Director of ForeignTRADEX.com. He added, "There are tens of thousands of machine shops across Europe and Australia and the ones we feature in our directory all have a Web site which allows users to compare their precision machining capabilities."

ForeignTRADEX previously launched an international trade leads directory which Hamilton claims to be the most useful trade sites for manufacturers and exporters of industrial goods at http://www.ForeignTradeExchange.com/trade_directory.html. According to Hamilton, the directory features hundreds of trade sites for industrial importers and exporters seeking to expand into foreign markets. "In today's competitive industrial marketplace going global is no longer just a way to increase profits but quickly becoming crucial to a manufacturers' long term survival," says Hamilton.
