After many years of providing exceptional staffing solutions to many major car rental companies in the US and Canada, Stryden Inc is bringing their expertise and proprietary software to serve the hospitality industry.

PR9.NET February 21, 2008 - Atlanta, GA - According to the US Department of Labor, the leisure and hospitality employed more than 13.5 million people as of December 2007. The department reported job opening rate is at 4.2% of total employed and openings within the industry, which is roughly around 56,000 job openings.

With this fact in mind, Stryden Inc is moving in to fill the void left within the hospitality industry. An industry with a projected 12.7% growth in the next decade.

Stryden Inc employed vertical staffing solutions model, which means they can offer outstanding staffing needs for every position within a company. With the use of many proprietary and innovate technologies, Stryden Inc is able to offer clients many competitive advantage compare to other staffing firms. One such technology is Stryden Harvester, which can extract job applicant information and direct it to company's recruiters within a few minutes. In addition, Stryden Inc's automated assessment of potential candidates can be programmed in multiple languages to answers the unique needs of many companies.

Stryden Inc's many competitive advantages and proprietary technology allow the company to recruit and hire new employees in days rather than weeks. The quick turn around translates into millions of saved dollars for clients from loss of business and inefficient in-house recruiting.

Stryden Inc responsiveness to workplace demographics and commitment to above and beyond customer service is what makes this company a dominant player in the staffing industry.
