*The B2B industrial supply social media site and forum for engineers and manufacturing professionals IndustrialSAVER.com, has launched an auction and marketplace for buyers and suppliers of electronic components.*

PR9.NET February 28, 2008 - Westboro, MA - IndustrialSAVER, a search partner of IndustrialCOOP and division of Donald LaBelle Associates announced today the company's electronic components auction has been completed and is available for bidding on a broad range of electronic equipment for industrial, technical, computing, telecommunications and manufacturing applications. According to an IndustrialSAVER spokesperson, the auction is designed to be integrated with the site's blog-based social media forum allowing registered companies to interact with one another.

The auction and marketplace includes offers on a variety of electronic components such as semiconductors, crystals, chips, multiplexes, fibers, diodes, inductors, resistors, electronic encoders, readers, converters, blocks, terminals, chambers, demodulators, visual and imaging equipment electronic shielding, amplifiers, modules, transceivers, filters, optical components, integrated circuits, thyristors, electronic test equipment and printed circuit boards (PCBs).

The Electronic Components Auction and new marketplace is available at <http://www.industrialsaver.com/stores/eep/Industrial-Electrical-and-Test/Electronic-Components> where users can explore and bid on a variety of processors, ICs, capacitors, assemblies as well as hard to find and obsolete electronic components.

"Most electronic parts and equipment in the auction are from sellers based in the United States whereas the marketplace itself includes offers from manufacturers and distributors worldwide," says Dom Matello, Marketing Manager of IndustrialSAVER. He added, "We recently added offerings for electronic chokes, robotics, modules, transducers, fiber optics, multipliers, transmitters, microwave components, transistors and electronic oscillators."

In addition to its auction and B2B marketplace, IndustrialSAVER has published what it calls an 'Industrial Savings Guide' at <http://www.industrialsaver.com/specials.html>. According to Matello, the guide was once available only to registered members of IndustrialSAVER but has since been made public to allow engineers and other industrial buyers worldwide to utilize the publication when sourcing for industrial products.
