Alan Turnquist, CEO and developer of the Jaguar Marketing System, vows to bring in \$1,000,000 within the next 12 months.

PR9.NET March 05, 2008 - Modesto, CA - Today in Jaguar Marketing's weekly meeting, Alan Turnquist, CEO and founder of Mentors on and Mission, creator of the Jaguar Marketing System announced that he is out to prove that Jaguar is the best home based business on the world.

"I've set a personal goal for the next 12 months, and my personal goal is to earn somewhere in the neighborhood of a \$1,000,000. I'm going to do that working exactly like we teach you..." stated Mr. Turnquist. Whether he will be able to follow through with his plans or not, remains to be seen, but if does, rest assured The jaguar Marketing System will quickly become a household name among Internet marketers and entrepreneurs across the globe.

According to Jaguar Marketing members, this comes as no surprise. "Any member has the ability to make a significant income with this company if they just follow the guidelines. The business model is brilliant, and not used by any other company out there. I have no doubt Al will meet his goal, and then some," states Len Estrada, Jaguar Marketing System member.

The Jaguar Marketing System offers, not only a massive potential for income, but a premium Internet Marketing training system that will show you, step-by-step, how to properly market your business. "I get live training from experts in their field. I have recorded training modules that are worth 10 times as much as I paid for them. It's a no brainer really, all my websites are number 1 or page 1 on Google. I did that by applying what I was taught in the Jaguar training rooms, at no extra cost," states Estrada.

If there are any other home business CEO's that would like to take on this challenge, please be advised that these guys at Jaguar Marketing are for real and at the top of their game. The skeptics will shout and moan, but until they put their rep on the line, their predictable murmurings fall on deaf ears.

Mr. Turnquist has promised to keep his members updated on his progress on a weekly basis. To find out more, please click on the Jaguar Marketing Revealed blog below.
