One of the renowned online gaming providers, The Gaming Club has joined Rupiz Affiliates, to extend services and marketing of its online casino.

PR9.NET March 11, 2008 - Noida, India – A reputed online gaming company called The Gaming Club has joined Rupiz Affiliates, the premier affiliate marketing network. With that extra feather, added in the cap, the affiliate network promises of its success at an international level.

The alliance is further expected to have a spiraling effect and pull other merchants from different corners of the world. At the same time, affiliates will get a chance to know and work with newly joined online gaming providers. It further proves that networks can go beyond the territorial borders; rather they can hook up the entire world.

The Gaming Club is a reputed online gaming company with a good hang on the audience in Europe, US and Canada. This online casino has been in the gaming sector for the last 13 years. With a good 280 interactive games in their coffers, the money is really theirs.

Co founder of Rupiz Affiliates, Meenakshi Wali, commented on the recent developments on casino gaming, by saying: "With this new merchant and many such casino sites hooked to our network, we plan to promote casino gaming at a wider level by bringing the end users closer to the resource providers."

The new age business mantra, which is 'business with pleasure', will have to allow for a slight modification considering the growth and success of the online gaming industry. The new maxim that seems to suit here would be 'business for pleasure and profits.'

Till a few days back, online casino lovers had to find out the best internet casinos through hit and trial methods. With these casino sites joining such leading affiliate networks, now it is expected to bring in a rise in casino lovers. This is because the gates of online gaming have been opened for Internet users through the extended reach of the affiliates. This in turn has increased the choices to be made and options to be considered by the active game users in the world. Increased participation is strongly predicted and that would also help in delivering quality gaming services.

###

About Rupiz Media Ltd

Rupiz Affiliates is a global affiliate network, catering to markets in the UK, US, some parts of Europe like France, Spain, Germany & Italy and Asia. Initially a part of Rupiz Media, an online marketing company, the network now functions independently and serves as a platform for merchants and affiliates seeking mutually-beneficial affiliate marketing associations.
