iHost Networks, Inc. announced today that a new, Microsoft Vista version of its Instant Publisher is now shipping with Web Studio 4.0 from Back to the Beach Software. The new version offers great value in Web hosting and e-commerce plus a free domain name.

PR9.NET March 11, 2008 - Bellevue, WA - iHost Networks, Inc. announced today that a new, Microsoft Vista version of its Instant Publisher is now shipping with Web Studio 4.0 from Back to the Beach Software. Web Studio is an easy to use, yet powerful Website design tool. iHost Networks operates the recommended Web hosting and e-commerce service for the product, www.iHostStudio.com.

iHostStudio's Instant Publisher allows users to preview their Website online, using the 24 hour Trial Publishing feature. When users are ready to host their Web site on the internet, the Instant Publisher assists them in searching for and registering a domain name, selecting a hosting plan and uploading their site content. The new Publisher also includes improved hosting plans, with expanded disk space, bandwidth, e-mail and shopping carts. Additionally, customers can protect themselves from spammers using the Whois Privacy Protector. iHostStudio has also recently expanded its service to support hosting resellers and affiliates. Web Studio designers can now take advantage of this offering to generate income from offering Web site building, hosting and e-commerce services.

John Norton, President of iHost Networks said, "Web Studio is known for its robust HTML authoring combined with user friendliness. We believe the addition of our new Instant Publisher is a great complement to Web Studio and will be well received by its users."

For a limited time, Web Studio customers signing up for a new iHostStudio account will receive a FREE DOMAIN NAME. The free domain name offer is to help users easily establish their Web presence and get their site online. (Visit: <http://www.ihoststudio.com/ihoststudio/offers.html>)

Web Studio 4.0 is available for download www.WebStudio.com. A free 30 day trial download is also available at the same location.

###

About Back to the Beach Software

Since 1998, hundreds of thousands of customers worldwide have used this award winning software to quickly create professional looking Web sites - without the expense of hiring programmers and designers. Web Studio was the first product to introduce drag and drop to Web design and has continued to introduce innovations.
