Network Security Provider Improves Payroll Efficiency and Proactively Manages Benefits With CheckPoint HR's Web-based Platform.

PR9.NET March 18, 2008 - Edison, NJ – CheckPoint HR, LLC, an innovator and leading Administrative Service Organization (ASO) that offers small- to mid-size organizations an integrated Human Resource Management System (HRMS) for payroll services, human resources, and benefits administration, today announced Lumeta, the leading network assurance solution provider for large enterprises and government agencies, has selected CheckPoint HR to optimize payroll and improve employee health care benefits administration. Utilizing CheckPoint HR's Web-based portal, Lumeta streamlined its payroll and benefits processes, reduced costs, and minimized the need for managerial assistance related to addressing human resource requests.

With a growing staff, Lumeta was in need of a centralized system to efficiently manage employee compensation and benefits administration processes. Having previously worked with a large Professional Employer Organization (PEO), Lumeta wanted an HR provider that could offer a personal touch with a strong customer service team. Additionally, Lumeta's part-time HR Manager, Jeanne O'Connor, sought a solution that could decrease costs, deliver better service to employees, and supplement her limited schedule.

"With our PEO, we felt as if we were a small fish in a very big pond and had difficulty communicating," O'Connor explained. "We wanted a company that was close to Lumeta, both in proximity and in understanding the needs of our small and growing business. From the beginning, CheckPoint HR was very hands on and made us feel like the most valued and important customer."

Since selecting CheckPoint HR, Lumeta has experienced immediate results from having a centralized platform for both payroll and benefits processes. CheckPoint HR's flexible and robust tool set has enabled supervisors the ability to quickly retrieve, change and update employee information with ease. Additionally, O'Connor, who was new to payroll responsibilities at Lumeta, praised CheckPoint HR's user-friendly and easy-to-navigate interface, which allowed for a smooth implementation within the first few weeks.

Lumeta's employees quickly benefited from CheckPoint HR's 24/7 online self-service option. "Our employees can now access critical information, such as setting up direct deposit and requesting vacation days, by simply logging onto the secure CheckPoint HR portal at any time from anywhere," O'Connor explained. "Having these flexible online capabilities reduces unnecessary paperwork and managerial assistance and puts our employees in control of essential personal information."

Additionally, Lumeta is working with The Wilshire Group, CheckPoint HR's insurance affiliate, to optimize employee benefits administration. The Wilshire Group helps organizations search for the best benefits package and often renegotiates with existing health care carriers to optimize the costs and coverage. "With the rising costs of health care it is important that your insurance broker understands your business and your employees' needs to ensure that they are delivering the most comprehensive plan," said Patrick Carragher, CheckPoint HR partner.

"The Wilshire Group has worked very hard to determine the best plans for our employees," O'Connor said. "Because CheckPoint HR and The Wilshire Group took the time to understand our company, they are able to deliver the most appropriate benefit packages. We have been able to provide our employees with the best medical and dental coverage at the most reasonable costs."

"Working with CheckPoint HR and The Wilshire Group has been successful on both a managerial and employee level," O'Connor explained. "We look forward to further using their technology in order to continue enhancing business performance."

###

About CheckPoint HR

Since 2001, CheckPoint HR has helped mid-size organizations automate all aspects of their human resource operations. As a leading Administrative Service Organization (ASO), CheckPoint HR's innovative Web-based Human Resource Management System (HRMS) technology platform and payroll services offer an affordable, comprehensive solution to manage payroll and benefits administration, as well as other business-critical human resources processes. This allows small- to mid-market organizations to deliver world-class services to its employees, reduce costs, and improve operational efficiencies. Further, completing its HR management solutions, CheckPoint HR boasts one of the largest insurance agencies in the Northeast through The Wilshire Group, its benefits affiliate that offers its customers benefits procurement backed by a sales team of licensed insurance brokers.
